

**Date:** 15<sup>th</sup> of March, **Day:** Thursday

**Location:** Faculty of Dentistry, King Abdulaziz University, Basement Laboratory, Building No. 11

**C.E credits:** 7 hours

*Dr. Clifford Ruddle*

### **Hands-on course**

**Title:** Creating Endodontic Excellence

<b><u>Registration fees:</u></b>	<b><u>Before 15<sup>th</sup> of Feb 2012</u></b>	<b><u>After 15<sup>th</sup> of Feb 2012</u></b>
	1200 SR	1500 SR

### **Outline:**

Clinical endodontics is confronted with a staggering number of different file brands and sequences for shaping canals. The most recent advancements in canal preparation methods have focused on the concept “less is more.” Dr. Ruddle will describe a single-file technique for shaping virtually all canals, regardless of their length, diameter, or curvature. This presentation will describe how a new, unique instrument design, superior metallurgical technology, and a novel mechanical movement have converged to create a single-file technique for shaping canals. Emphasis will be placed on creating minimally invasive shapes that promote 3D disinfection and obstruction.

### **Curriculum Vitae:**

- Dr. Clifford J. Ruddle is the Founder and Director of Advanced Endodontic, an international educational source, in Santa Barbara, California. Additionally, he maintains teaching positions at various dental schools, is a Fellow in both the American and International Colleges of Dentistry, and has authored numerous articles and chapters for leading textbooks.
- As an inventor, Dr. Ruddle has designed and developed several instruments and devices that are widely used internationally. He is best known for providing superb education through his lectures, instructional DVDs, and "ONE-ON-ONE" training courses in Santa Barbara, California.
- Internationally recognized as a leading expert in all aspects of clinical endodontics, Dr. Ruddle is acclaimed for providing superb endodontic education through his teachings, clinical articles, training manuals and multimedia products. He is the founder and director of Advanced Endodontics, an international educational source in Santa Barbara,

California. Dr. Ruddle created the world's first private micro endodonticsimulation training center in 1989 and has trained several thousand dentists microscope assisted endodontic techniques. He is well-known for his ability to empower colleagues and motivate clinicians towards their full potential. Additionally, Dr. Ruddle maintains a private practice limited to endodontics in Santa Barbara.
