

## **Women's Health Rights**

**Sheikh Mohammed Hussein Al-Amoudi Scientific Chair, King Abdulaziz University**

**Chairwoman, Dr Samia Al-Amoudi**

**January 2012**

**Introduction:**

Women's Health Rights are basic fundamental human rights. Healthy women means healthier society and women in Saudi Arabia needs to be empowered with knowledge about their health rights. Without their health women cannot perform as mothers, working women or contribute to their country development.

**Mission:** To empower women with knowledge of their health rights

**Vision:** To reach world health class in women's health work scope will focus mainly on the following:

- 1- Cancer patients' rights; mainly breast cancer patients
- 2- Reproductive health and safe motherhood
- 3- Adolescence sexual and psychological health
- 4- Underserved women's health rights including deaf & mute.

According to Dr. Samia Al-Amoudi chairwoman and founder of Women's Health Rights Chair: "It is a dream coming true, the rights' of women in my country is not only right of women to driving..... Health Rights is a priority for women and is one of their human basic & fundamental right, without their health women will be unable to carry out its tasks as mother and wife, and unable to meet the requirements of its work in any sector, but that did not enjoy these rights renders it unable to claim the other rights.

**"...health will finally be seen not as a blessing to be wished for, but as a human right to be fought for"**
