

**Math 110 (S & E) Syllabus / Term (1)**

| Lectures                |   |  |   |                                    |                               |
|-------------------------|---|--|---|------------------------------------|-------------------------------|
| Chapter Title           | Section                                       | Theoretical (Definitions & Theorem)  | Exam.   | Exer.                              | HW                            |
|                         | <b>1.1 Basics of Sets</b>                     | <b>Main sets of Numbers ,Kinds of intervals</b>  | <b>Read :4</b>  | -                                  | -                             |
| Ch1: Elementary Algebra | <b>1.2 Equations and Inequalities</b>         | <b>Linear Equations of one Variable ,Second degree Equations of one Variable ,Inequalities, Absolute Value.</b>  | <b>16(b),17,20(b)<br/>Read<br/>(1-6),10,13<br/>,16(a,c),18,19(a,c),<br/>20(a,c)</b> | -                                  | -                             |
|                         | <b>1.3 Lines</b>                              | <b>The Slope, equation of line. Four Kinds of Lines in the Plane.</b>  | <b>1(a),2,3,<br/>10(a),<br/>Read<br/>6,9,10(b)</b>                                  |                                    |                               |
|                         | <b>1.4 Trigonometry</b>                       | <b>Converting formula .The Six Basic Trigonometric Functions, identities.</b>  | <b>1(1),2(3),4<br/>Read<br/>1(2-6),2(1,2,4,5,6)</b>                                 | <b>2,5,9,16, 17</b>                | <b>1,8,15, 18</b>             |
| Ch2:<br>Functions       | <b>2.1 Functions and Their Graphs</b>         | <b>Definition 2.1.1, Domain and Range of a Function, identifying functions, Piecewise Functions, vertical line test, , Definition 2.1.3 Increasing and decreasing function, summary of standard curves, Rules(1-3)</b> | <b>5(c,e,f),9-13<br/>,15(a,b),16-19 ,22,<br/>24<br/>Read<br/>4,5(b,d),6,7,8</b>     | <b>4,10,22,24,29-43 (odd)</b>      | <b>1-5,7,9,14,15,17,23,25</b> |
|                         | <b>2.2 Combing Function;<br/>Even and Odd</b> | <b>Composite Functions, Even and Odd Functions, Shifting and reflecting Graphs</b>   | <b>4-9 10(2,5,6,7)<br/>12,13</b>  | <b>3,13,23,<br/>33-35,39,43,45</b> | <b>1,8,10-12,25-32,36-38</b>  |

|                                   |   |  |  |                                       |  |
|-----------------------------------|---|--|--|---------------------------------------|--|
|                                   | <b>Functions; Shifting and Scaling Graphs</b>   | <b>of Functions.</b>   | <b>Read</b><br><b>1-3,10(1,3,4)</b>  |                                       |  |
|                                   | <b>2.3 Exponential Functions</b>  | <b>Laws of Exponents, The Number e.</b>  | <b>1-3</b>   | <b>2,3,6,8</b>                        | <b>3,4,5,7</b>                             |
| <b>Ch2:<br/>Functions</b>         | <b>2.4 Inverse Functions, Logarithms Function and Inverse Trigonometric Functions</b> | <b>Inverse Functions, Logarithms Function, Natural Logarithms, Inverse Trigonometric Functions.</b>  | <b>1,2,7 -9,11-13,14(a),15,17,18<br/>Read(3-5),10,16</b>                     | <b>3,5,11,19,20,23,27,32,34,36,39</b> | <b>1,2,6-12,15,21,22,24,25,29,33,34</b>    |
| <b>Ch3: Limits and Continuity</b> | <b>3.1 Limits of Real - Valued Functions</b>  | <b>Numerical Introduction to Limit</b>   | <b>1,3,4</b>   |                                       |  |
|                                   | <b>3.2 Calculating Limits Using the Limits Laws</b>                                   | <b>The Limits Laws, Eliminating Zero Denominators Algebraically, The Sandwich Theorem.</b>   | <b>4,6,8,10(d),11,15-18,21, 23-25<br/>Read:2,5,12,13,14,19,20,22,26,27</b>   | <b>10 , 34</b>                        | <b>2,4-7,12-14,16,21-23,25-27,33,35-37</b> |
|                                   | <b>3.3 One Side Limits and Limits at Infinity</b>                                     | <b>One Side Limits, Limits of Trigonometric Functions, Limits at Infinity and Horizontal Asymptotes, Limits at Infinity of Rational Functions &amp; Polynomials.</b> | <b>1,6,8-10,14-17,19-22,24-26,28,29,31,34<br/>Read: 2-5,7,18,23,27,30,33</b> | <b>21, 44,49<br/>56,58</b>            | <b>1,7,9,20,21,50, 51,59</b>               |
|                                   | <b>3.4 Infinite Limits and Vertical Asymptotes</b>                                    | <b>Infinite Limits, Vertical Asymptotes.</b>   | <b>5,9,10,12,13</b>  | <b>4,9,19,<br/>18</b>                 | <b>1,2,20, 27</b>                          |
|                                   | <b>3.5 Continuity</b>   | <b>Continuity at A Point, Properties of Continuous Functions.</b>  | <b>1,5-8,14-16,21,22,25,29-31,33-35,37<br/>Read:2-4,9-11,13,18-20,24</b>     | <b>25</b>                             | <b>5,8,9,23,28</b>                         |
| <b>Ch4: Differentiation</b>       | <b>4.1 The Derivative as Function</b>   | <b>Alternative Formula for the Derivative, One-Sided Derivative, The relationship between Differentiability and Continuity.</b>                                      | <b>1,4,5</b>   | <b>8</b>                              | <b>-</b>                                   |
|                                   | <b>4.2 Differentiation Rules</b>  | <b>Differentiation Rules</b>   | <b>1,3(i-iii),6,8-13,15<br/>Read:2,3(iv-viii),4,5,7,14</b>                   | <b>14,18</b>                          | <b>4,13,19,25</b>                          |
|                                   | <b>4.3 Derivatives of Trigonometric Functions</b>                                     | <b>Derivative of Sine Function, Derivative of Cosine Function, Derivative of other Basic Trigonometric Function.</b>   | <b>1-4,6<br/>Read: 5</b>   | <b>-</b>                              | <b>11,13,20,33</b>                         |

|   |  |  |  |                         |                                |
|---|--|--|--|-------------------------|--------------------------------|
|   | <b>4.4 The Chain Rule and Parametric Equations</b> | <b>The Chain Rule.</b>   | <b>1-7,9-11(i)<br/>Read: 8</b>             | <b>7,23,27</b>          | <b>10,19,25</b>                |
|   | <b>4.5 Implicit Differentiation</b>                | <b>Implicit Differentiation, Derivatives of Higher Order, Derivatives of Inverse Trigonometric Functions.</b>  | <b>2-4(iii,iv),5,6<br/>Read: 1,4(i,ii)</b> | <b>15,16,24,<br/>34</b> | <b>9,13,17,25,27<br/>,29</b>   |
|   | <b>4.6 Derivatives of Logarithmic Functions</b>    | <b>Derivatives of Logarithmic Functions, The Power Rule.</b>   | <b>2-6,8-10(sol.1)<br/>Read: 7</b>         | <b>12</b>               | <b>5,7,13,<br/>20,21,24,26</b> |
| <b>Ch5: Applications of Differentiation</b> | <b>5.1 Extreme Values</b>                          | <b>Extreme Values, Critical Number, Rolle's Theorem, The Mean Value Theorem.</b>   | <b>1-3,5,7,10<br/>Read: 4,6,8,11</b>       | <b>10,16,18</b>         | <b>2,12,20</b>                 |
|   | <b>5.2 Monotonic Function and Concavity</b>        | <b>Monotonic Function and Concavity, First Derivative Test For Monotonic Function, Derivative Test For Local Extreme, Concave Up and Concave Down, The Second Derivative Test for Concavity.</b> | <b>2,4,5(a),6,8<br/>Read: 1,3,5(b),7</b>   | <b>5</b>                | <b>2,8</b>                     |

**Marks distribution :-**

First Exam (90 min; 30 marks); Second Exam (90 min; 30 marks); Final Exam (120 min; 40 marks)
