GUIDLINES FOR AUTHORS

■ ABOUT THE JOURNAL OF MARINE SCIENCES

A bi-annual periodical issued by King Abdulaziz University (KAU) in the field of Marine Sciences and published by the KAU Scientific Publishing Centre both online and print versions.

■ AIMS AND SCOPE

Journal of KAU "Marine Sciences" (*JKAU:Mar. Sci.*) is a multidisciplinary journal in marine sciences and is devoted to the publication of original research with emphasis on fundamental aspects of marine sciences.

The journal publishes peer-reviewed research papers in the entire range of marine research. Original articles, review articles, letters to the editor and book reviews are to be published in this journal. Materials that contribute to the scientific understanding of marine environment of the Red Sea, Arabian Gulf and adjacent seas may be preferred.

■ INDEXING & ABSTRACTING

The Journal is abstracted and indexed in SCOPUS

■ SUBMISSION

Materials in Arabic and English can be submitted on the understanding that they represent original works not previously published, not being considered for publication elsewhere. If accepted, the same material can not to be published in the same form in any language without written consent of the Editor-in-Chief.

Submissions can be made to the journal editorial office address through **postal mail** (three hard copies plus CD ROM) or send in electronic form as an attachment MS Word file by **e-mail**.

■ AUTHORSHIP

The corresponding author will be responsible for ensuring that all contributors are listed as authors and that all have agreed to the manuscript's content and its submission to the journal. Any changes in authorship must be approved in writing by all the original authors and sent to the journal Editor-in-Chief by the corresponding author before the accepted manuscript is published. The corresponding author is also responsible for checking the proofs before publication unless otherwise indicated.

■ EDITORIAL PROCEDURES

- All manuscripts received are expected to meet academic standards and will be peer reviewed by specialized referees. Manuscript can be published after reviewer's suggested comments are taken into account. After acceptance the final version of the manuscript will be published in both online and print issues. Free access to the journal is available online at King Abdulaziz University Scientific Publishing Centre home page at http://spc.kau.edu.sa.
- Authors are requested to identify two or more names of specialized reviewers with their e-mail addresses and other details. Please note that recommended reviewers may not be guaranteed.

■ ORGANIZATION OF PAPER

The organization of paper is outlined below; this is followed by additional instructions and guidelines for specific sections that will assist authors for preparing manuscripts to the JKAU: Marine Sciences.

The Editor-in-Chief reserves the right to return manuscripts that are not prepared in accordance with the journals format.

■ **FORMATTING** (*Please see table for fonts types, sizes and styles used in JAKU, Marine Sciences - Microsoft Word XP*).

► Typescript:

• Typescript can be submitted either in Arabic or English only on one side of A4 size paper.

▶ Writing:

The text should be concise, written clearly in scientific language and well organized.

► Layout of the manuscript:

• Title page

The first page of the manuscript must contain the following information in the order shown:

- i) Title of manuscript, brief and specific
- ii) Author's name(s)
- iii) Authors addresses should be given in the order of which the names appear
- iv) Corresponding author's e-mail address (who will handle correspondence at all stages of reviewing and publication)
- v) Abstract, not exceeding 200 words, self-contained and factual without reference to the body of the text.

Note: In the case of paper in English/Arabic an Arabic/English version of the "English/Arabic edited" abstract should be submitted separately.

This condition is not for the non Arabic speaking author(s).

vi) Keywords: immediately after the abstract, provide 3-10 keywords (indexing terms).

• Main text

- i) The dimension of the text 19 cm depth, 12.5 cm width, with double line spacing.
- ii) Use three of fewer grades of headings. Avoid footnotes: most material of footnote can be incorporated in the text. Do not underline any word, the Latin names of genera or species in italics. Headings should not be underlined.
- iii) Tables and Figures must be placed in appropriate positions with captions within the main body of the text. Use the metric system and standard abbreviations are required.

Note: Tables and figures both should numbered consecutively in the order in which they are mentioned in the text. Each table must have a short, informative self-explanatory title above and if numerical measurements are given, the units should be included in the column heading. Figures should be of publication quality resolution and each figure should have a short, informative self-explanatory caption below the figures.

Photographs should be clear, sharply contrasted, and not less than 300 dpi. All illustrations (line drawings, half-tone plates etc.) should be numbered consecutively as figures.

- iv) Equations must be centered, and its numbers must be right-justified, between curved brackets.
- v) The organization of the text varies by article type. In general prepare the main text of research article with sections under the following headings:
- **Introduction** containing formulation of the subject, statement about its current stage of development and a clear definition of the aim of the paper;
- Material and methods the description must be sufficiently detailed to enable the procedure to be reproduced by other researchers;
- **Results and Discussion** this section may be divided by subheadings or may be combined. Author s own results should be given under this heading. Discussion of the author's results should focus on elucidation of theoretical and logical aspects, deductions and conclusions etc. and comparison with those of other workers.
- **Conclusion** conclusion summarizes the findings that have been firmly established. It should not duplicate the abstract or the discussion.

Acknowledgements

The acknowledgement (if any) should be included at the very end of the paper before the references.

References

Authors are fully responsible for the accuracy of their references, and every reference cited in the text should be listed in the references list (and vice versa); otherwise, these references will be removed. 1- In-text citations: references cited in the text should be referred by placing author's family name with a comma and year of publication between two curved brackets. Reference style in the text should be: single author (Halim, 1984); two authors (Peters and Johns 2005); when a work by more than two authors is referred, the family name of the first author should be followed by "et al.", (Hashimi et al., 1995). Groups of references should be listed first chronologically, then alphabetically and semicolons used to separate citation (Halim, 1984; Hashimi et al., 1995; Peters and Johns 2005). For unpublished material such as personal communications, give the author's initial(s): (A. Niell, pers. comm.). 2- Reference list: All references entered must include the following information: authors family names and initials, date of publication, full title of reference material (Capitalize Each Word), full title of source, volume number (issue or part number), page number(s), publisher and place of publication. Digital Object Identifier (DOI) number if available should be provided for material published online only to cite and link to electronic documents and for articles in press because they have not yet received their full bibliographic information. Reference should be restricted to work already published, and a work accepted for publication that should be referred to as 'in press'. References should be arranged first alphabetically and then further sorted chronologically if necessary. More than one reference from the same author(s) in the same year must be identified (both in the text and in the reference list) by the lower case letters "a", "b", "c", etc., placed after the year of publication. Unpublished data, including work submitted to a journal but not yet formally accepted, should not be included in the list.

■ SUBMISSION OF REVISED MANUSCRIPTS

The authors are expected to revise their manuscripts and to submit their revised version of manuscript timely via e-mail. The revised manuscripts submitted must contain point-by-point response to the reviewer's reports and/or editor's comments. Also a separate covering letter should include a detailed list of changes made to the paper or a rebuttal against point(s) being raised. The subject editor reviews the revised manuscript then makes an editorial recommendation which can be accepted for publication in the journal or rejected.

■ Proofs

• After acceptance, the revised manuscript will be passed to the production team for copy editing and printing, so it is important to check the proofs carefully. Electronic page proofs will be sent (by email) to the identified corresponding author as a PDF file. Page proofs are considered to be the final

version of the manuscript, and should be checked carefully for typesetting, editing, completeness and correctness of the text, tables and figures to confirm that it is free of any errors and returned to the Editor in Chief within 72 hours (use the PDF annotations function, you may list the corrections and return them in an e-mail. If, for any reason, this is not possible, then mark the corrections on a printout of your proof scan the pages and e-mail).

• Amendments, additions and other changes to the manuscript that are not due to printer(s) errors will be charged to the author.

■ Reprints

- 20 free reprints per paper will be supplied.
- Additional reprints could be ordered on returning page proofs, according to the rates of Scientific Publishing Centre.
- PDF file of published papers in the journal is available, free, online at http://spc.kau.edu.sa.
