In the busy city centre there are some excellent, expensive hotels. The beautiful Fairmont hotel is $400 a
night, but next to the sea there are a lot of cheap, comfortable hotels from $59 a night.

I. Reading: Read the following passage then answer the questions below:

**Masumi Takahashi**

In Japan we eat rice at every meal. For breakfast, we have rice, fish, and soup. At 12:00 I have *bento*, which is a lunch box. My wife makes this for me everyday. There are small dishes of rice, fish, vegetables, eggs, and sometimes meat.

In the evening, we have more fish, maybe with beans. I'd like to eat with my children, but I don't get home till 9:00.

At the weekend, we like doing things together. We go for walks, and have dinner. We eat lots of small dishes. We don't put a lot of food on our plate, so we don't eat too much.

**Richard Welty**

I eat little and early. I have toast and cereal for breakfast, and salad for lunch at about 11:30. For dinner I usually eat chicken, fish or seafood. If I have a snack between meals, it's always fruit.

I ride my bike to work across Brooklyn Bridge, and run 10 kilometers a day. I'd like to run the New York Marathon this year. I'm a waiter, so I'm on my feet all day.

Too many people in this country don't eat right. They say they don't have time to buy food and cook, so they snack all the time.

At home I like cooking for friends. For me the dinner table is the centre of the home.

**Fahd Al Qahtani**

For breakfast I have bread with cheese, eggs, yogurt and tea. Lunch is at 2:30. It is usually a big meal, with lots of different dishes. Perhaps some chicken or fish with rice - "kabsa" – vegetables, hummus and tomato sauce. We drink fruit juice or water with the meal.

We have dinner at 8. Traditionally the evening meal was much smaller than lunch, but now it is the big meal of the day. Of course during Ramadan we eat just two meals, one before dawn, and one after sunset.
I'd like to eat out more often but I don't have time. I live near the hospital so I like walking to work. It's my only exercise!

I. Read the following passage then answer the questions below:

The Secret Millionaire

The Secret Millionaire is a program on UK TV's Channel 4. Every week a different millionaire leaves his or her comfortable, expensive home and lives and works for ten days with people who aren't rich and need help. The people don't know who he or she is. They are ‘secret millionaires’.

Colin Cameron is this week's millionaire. He started his business 25 years ago when he was 19. He's now worth £ 60 million and lives with his wife and two teenage sons in a beautiful, big country house. He also has a house in Paris, and apartments in London and New York. He drives a yellow Lamborghini and even has a private plane. He says: "I am a very lucky man. Now I want to help people who are not as lucky as I am, especially young people."

This week is different
Colin left his family last weekend and went by train to Manchester. **He** is now living in Moss Side, a poor area of the city. He is staying with a married couple, Roger and Margaret Watson. They think he is looking for work in Manchester.

Roger and Margaret live in a small flat on the 8th floor of an apartment block. They only have one bedroom so Colin is sleeping on the sofa in the living room. They run a hostel for homeless teenage boys.

This week Colin is working with the boys in the hostel, an old, grey building in a busy road. Some of the boys can’t read and write very well and he is helping them learn so that they can find jobs.

Roger, Margaret and the boys like Colin. They think that he is a good teacher. They have no idea he is a millionaire. Colin says:

“I’m missing my family a lot but Roger and Margaret are wonderful people. I’m enjoying my time with them very much. I’m learning a lot about life. At the end of the week I want to give them £100,000 to build a new hostel. I’d like to bring my sons here to meet them all.”

Manuela Da Silva from Portugal
People think it's always warm and sunny in Portugal, but January and February are often cold, wet, and grey. I don't like winter. I usually meet my friends in restaurants and coffee shops and we chat. Sometimes, we go to a Brazilian café. I love Brazilian food. But then suddenly it's summer and at weekends we drive to the beach and go swimming. I love summer.

Hamad Saleh from Bahrain
I work for Gulf Pearls, in the export department. I don't have a lot of free time, but I have one special hobby-taking underwater photographs. I love diving and the fish are very beautiful. Sometimes, after work, I relax in a coffee shop near my office with friends. My friend, Jamal, likes motor racing and he has tickets for the Formula One World Championship in Sakhir next spring. Cyril Jean is a designer and he loves round things. He collects old coins and clocks. He also collects round furniture. And now he has a completely round house for it all.

The centre of the house is one very big bubble. This is both the living room and dining room. There are round armchairs, a round table, and a big round rug in front of a round fireplace. Around the living room are three small bubbles. One bubble is a kitchen with round cupboards, another bubble is the garden room, and the third bubble is a reading room for all Cyril’s books. Upstairs there are two more bubbles – a bedroom, and a bathroom.

The doors and windows are also round, of course. The windows are like eyes. There aren’t any curtains in the house, because Cyril likes to see the garden all the time.

Bubble houses are the idea of a Hungarian architect, Antti Lovag. Lovag thinks that a lot of modern houses are bad for us, especially tall blocks of flats. Planes To Rockets In Sixty Years

There are just 60 years between the first flight and the first man on the moon. In the 20th century, progress in aviation was phenomenal.

1909 The first Air Journey:
On July 25 1909, a Frenchman, Louis Bleriot, became the first man to complete an air journey when he flew from Calais, in the north of France, to Dover, in the south of England. Bleriot's flight amazed the whole of Europe. People thought that such a journey was impossible.

The flight:
The flight wasn't easy. Mr. Bleriot a 27-year-old engineer, couldn't swim, so he didn't want to come down in the Channel. He couldn't walk very well because of a leg injury, and he didn't have a compass.

On the morning of the 25th, he took off at 4:30 from a field at the edge of a cliff. It took 37 minutes to complete the 22-mile journey. The plane flew at 40 miles per hour at an altitude of 250 feet.
Everything went well until he flew into fog. "I continued flying for ten minutes, but I couldn't see the land, only the sky and the sea. It was the most dangerous part of the flight. I wasn't worried about the machine. It flew beautifully. Finally, I saw the land," he told reporters.

**Landing in England:**
When he got to Dover, he saw a French newspaper journalist waving a flag. He cut the engine at 60 feet and crashed into a field. The news quickly went round the world, and Mr. Bleriot's flight was celebrated in London and Paris. He won a prize of £1,000.

On 16 July 1969, at 9:30 in the morning, Apollo 11 lifted off from the Kennedy Space Centre in Florida. There were three astronauts – Neil Armstrong, Buzz Aldrin, and Michael Collins. The enormous rocket took three days to complete the 250,000 miles to the moon, travelling at six miles per second (21,600 miles an hour). Then it circled the moon 30 times, giving time to prepare for the landing.

The lunar module landed on a part of the moon called the Sea of Tranquility at 8:17 in the evening on 20 July.

It was time for the astronauts to rest, but they were too excited to sleep. At 3:00 in the morning on July 21, Neil Armstrong became the first man to walk on the moon. Six hundred million people all over the world watched the moonwalk on TV. As Armstrong took his first steps, he said the famous words, ‘That's one small step for man, one giant leap for mankind’.

Walking on the moon:
Armstrong and Aldrin spent two and a half hours walking on the moon. They collected samples and set up scientific equipment. Finally, they put up a US flag. After 22 hours on the moon, the lunar module lifted off and flew up to join the rocket that took them back to Earth. They left an inscription:

```
HERE MEN FROM THE PLANET EARTH FIRST SET FOOT UPON THE MOON, JULY 1969. WE CAME IN PEACE FOR ALL MANKIND.
```

This flight was the beginning of man's exploration of space.

Two Americans, Jacob Davis and Levi Strauss, made the first jeans in 1873. Davis bought cloth from Levi's shop. He told Levi that he had a special way to make strong trousers for workmen. The first jeans were blue. In 1935 jeans became fashionable for women after they saw them in "Vogue" magazine. In the 1970s, Calvin Klein earned $12.5 million a week from jeans.

A Scotsman, John Logie Baird, transmitted the first television picture on 25 October, 1925. The first thing on television was a boy who worked in the office next to Baird's workroom in London. In 1927 Baird sent pictures from London to Glasgow. In 1928 he sent pictures to New York, and also produced the first colour TV pictures.

Felix Hofman, a 29-year-old chemist who worked for the German company Bayer, invented the drug Aspirin in April 1899. He gave the first aspirin to his father for his arthritis. By 1950 it was the best-selling painkiller in the world, and in 1969 the Apollo astronauts took it to the moon. The Spanish philosopher, Jose Ortega y Gasset, called the 20th century "The Age of Aspirin".

I. Reading: Read the following passage then answer the questions below:

For 99% of human history, people took their food from the world around them. They ate all that they could find, and then moved on. Then about 10,000 years ago, or for 1% of human history, people learned to farm the land and control their environment.

The kind of food we eat depends on which part of the world we live in, or which part of our country we live in. For example, in the south of China they eat rice, but in the north they eat noodles. In Scandinavia, they eat a lot of herrings, and the Portuguese love sardines. But in central Europe, away from the sea, people don’t eat so much fish, they eat more meat and sausages. In Germany and Poland there are hundreds of different kinds of sausages.

In North America, Australia, and Europe there are two or more courses to every meal and people eat with knives and forks.

In China there is only one course, all the food is together on the table, and they eat with chopsticks.

In parts of India and the Middle East people use their fingers and bread to pick up the food.

Nowadays it is possible to transport food easily from one part of the world to the other. We can eat what we like, when we like, at any time of the year. Our bananas come from the Caribbean or Africa; our rice comes from India or the USA; our strawberries come from Chile or Spain. Food is very big business. But people in poor countries are still hungry, and people in rich countries eat too much.

Mumbai A City Of Extremes

Mumbai is India's largest city with a population of 22.8 million. It is also India's most important commercial centre. Mumbai was part of the British Empire until independence in 1947. It was called Bombay until 1995, when it was renamed Mumbai after a Hindu goddess, Mumba Devi.

Rich and Poor:

Mumbai is both old and modern, rich and poor. The streets are full of people doing business, selling snacks and clothes, or just living there.

Money is everywhere in modern Mumbai. India's most important businesses and banks have their headquarters there. Mumbai is also one of the biggest centers of India's growing IT industry.

Modern skyscrapers and new shopping malls are right next to slums. Sixty percent of the population live with no running water, no electricity, and no sanitation.

Visiting Mumbai:

Mumbai is on the west coast. The wet season is from June to September. Between November and February it is a little cooler and drier.

The city is best at sunrise and sunset, when the colour of the stone buildings changes from gold to orange and pink. The cheapest and easiest transport is by bus. Trains can be crowded and dangerous.

Because of its poverty, Mumbai can be a difficult place to live, but the experience is unique.

Multicultural Mexico City

Mexico City has a population of 23.4 million. It is the largest city in both North and South America. The Aztecs called it Tenochtitlan, and it was already an important city when the Spanish invaded in 1521. The country became independent in 1821.

Indian and European:

Mexico City offers a variety of experience. Standing in the Zocalo, the main square, you can see buildings from the city's Spanish and Aztec past, and also a modern skyscraper, the first in the world to survive a major earthquake.

I. Reading: Read the following passage then answer the questions below:

Clem Quinn was always interested in flying. When he was five, he tried to fly by jumping off the garden shed with a golf umbrella, but when he grew up he didn’t become a pilot, he became a taxi driver. Then 20 years ago he did a parachute jump and loved it. He decided that being a taxi driver in London was a lot more dangerous than jumping out of a plane, so he moved to the country to learn parachute jumping and sky-diving. He is now a full-time teacher of sky-diving. He says:

“I love sky-diving because the world looks so good - blue sky, green fields, white clouds. You float through the air, it’s like floating in water. You can see forever, all the way to the French coast. The views are fantastic. You can forget all your worries. People think it’s dangerous, but it’s safe. Football is much more dangerous. Footballers often have accidents. When did you last hear of a sky-diving accident? Next July I’m going to do a sky-dive with 100 people from six planes. That’s a record. I’m never going to retire. I’m going to jump out of planes until I’m an old man.”
