

Project Title: _____

Timeline (Term - 2)

Team No.: _____

Task	Week															
	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Milestone I (Implementing solution)																
• Set a work plan for analysis	■	■														
• Distribute responsibilities to team members			■													
• Prepare the component design			■	■	■	■	■									
• Simulate your design (if applicable)			■	■	■	■	■									
• Implement your design			■	■	■	■	■									
• Prototyping (if applicable)			■	■	■	■	■									
• Written report on implemented solution (submit to advisor)							■	I								
Milestone II (Evaluating solution)																
• Design of experiments							■	■	■	■						
• Evaluate data statistically										■	■					
• Establish an interpretive discussion of results										■	■					
• Evaluate actual versus estimated performance										■	■					
• Compare results with those of other existing solutions										■	■					
• Make cost analysis										■	■					
• Prepare a user's manual (if applicable)											■	II				
Milestone III (Writing the report)																
• Strictly follow SDP report writing guidelines					■	■	■	■	■	■	■	■				
• Final report (submit to advisor)													■	■	III	
Milestone IV (Presenting and defending the report)																
• Prepare presentation slides / poster														■	■	
• Make necessary corrections after the oral presentation															■	IV
