Associate Dean University of Illinois Chicago
Dr. Lana Al Shawwa
Program Director**

Program vision:

Better health care through effective and innovative educated health professions leaders.

Program mission:

To produce exemplary **leaders and scholars** who will advance the field of health professions education care locally, regionally and internationally.

Program objectives:

- The program is designed to :
 - 1) Provide in-depth training in all aspects of health professions education.
 - 2) Help applicants acquire the knowledge and skills to advance health sciences education at their own institution to the highest international standards.

Program objectives:

- 3) Provide health professions education leaders with a broad and rigorous foundation in the theory and practice of education.
- 4) Enrich the field of health professions education with scholars who will advance understanding and practice of education in the health profession.

Who will facilitate the program?

UIC University of Illinois
at Chicago
